INDEX OF STATE IMPLEMENTATION OF FEDERAL PROGRAMS

INTRODUCTION

Program information contained in this volume is based upon reports submitted by state agencies and federal regional offices having either direct or indirect involvement with federally sponsored programs which may provide direct day care services or support for day care activity. These reports were submitted in response to a national inquiry conducted to develop a single reference of federally financed day care activity in the states as it existed at the launching of Day Care Survey 1970 (September 1970).

Although 100 per cent response was not achieved -- thus precluding more comprehensive coverage -- this initial assembly of state program data does begin to fill a void in day care program information resources.

In general program and project entry headings are self explanatory. It should be noted however, that in the instance of joint program administration, the "Administering Agency" indicated is the agency responsible child care services aspects of the program; in the case of program delegation, the name of the delegate agency is provided.

NAME OF PROGRAM:

Day Care Services

TYPE OF PROGRAM:

Day care is a service for less than 24 hours a day to a child under the age of 16 in a group or family setting outside his home. The service provides care and protection and supplements parental care when parents are employed or seeking work, when the mother is disabled or absent from the home, or when living conditions are inadequate or there are health, social or emotional problems within the family.

SOURCE OF FEDERAL ASSISTANCE (PROGRAM AUTHORITY, ADMINISTERING AGENCY):

Titles IVA and IVB, Social Security Act.

U. S. Department of Health, Education, and Welfare, Social and Rehabilitation Service.

PROPORTION OF FEDERAL ASSISTANCE AND STATE AND/OR LOCAL MATCHING:

IVA funds:

Federal - 75%

State - 25% (cash)

IVA funds are used primarily for operational costs (e.g., purchase of day care services) while IVB funds are generally used to finance the cost of program support activities (e.g., training, informational literature, etc.).

ADMINISTERING AGENCY (STATE GOVERNMENT AGENCY OR GRANTEE AGENCY):

State Department of Employment and Social Services, Social Services Administration (formerly, State Department of Social Services).

AGE SPAN OF PARTICIPATING CHILDREN:

Infancy to 14 years.

ELIGIBILITY REQUIREMENTS OF PARTICIPATING CHILDREN:

Eligibility for day care service is determined according to criteria established in the selection of a day care plan. Such planning begins with an interview with the parent to determine why day care is needed and whether group or family day care is more appropriate for the child and his family.

Services are available to children from families who are eligible or potentially eligible for AFDC, and from former AFDC families which have a continued need for day care service.

Priority is for AFDC families in which:

1) The parent, usually the mother, needs and wants to be employed.

2) The parent, usually the mother, is in training either to learn a vocation or to achieve upward mobility.

3) Children are in physical or social situations which produce emotional stress in family relations that can be alleviated (for the child) by day care services.

In counties having WIN programs, priority is given to AFDC families represented in the program.

Potential Eligibility:

The criteria for potential eligibility are technical eligibility and need for the services.

1) To establish potential technical eligibility, the record must substantiate the age of the child, relationship, and the factual basis on which there is or may be deprivation due to death, absence or incapacitation of a parent, or unemployment of the father in the home. Such record must be reviewed every six months for re-examination of technical eligibility.

2) With respect to need, there is potential eligibility until the family is able, by an established fee scale, to pay the full cost of care (see Fees, below).

3) The need for continuing services to the potentially eligible must be substantiated in the record. It must also be substantiated that the day care service meets the needs of the child and strengthens his family life. The record must be reviewed when there are significant changes in the family situation and/or at least every six months.

A former AFDC recipient who is no longer eligible for assistance payments is considered potentially eligible if he meets the requirements in items 1) and 2).

PRINCIPAL SERVICES PROVIDED:

1) Group day care (local social service department-operated day care centers) for children from 3 to 6 years of age.

2) Family day care home care for children who are chronologically or developmentally under 3 years, and for other children with special needs that can be better met in a family home.

3) After school care for older children in family day care homes.

Departmental standards for payment to providers of service for family day care (September, 1970) are $60.00 per month per child for Baltimore City, Montgomery County and Prince George's County, and $54.00 for all other counties.

If a child if absent no more than 10 consecutive week days, it is not necessary to recalculate the payment. If the absence exceeds 10 days, the payment is for actual days of attendance. For a monthly payment of $60.00, the per diem rate is $3.00; for a monthly payment of $54.00, the rate is $2.70.

For a child receiving after school family day care, the payment is $30.00 for the $60.00 standard and $27.00 for the $54.00 standard.

4) Purchase of care from licensed public and private day care centers when the local department's own day care resources are insufficient or it has no resources. Purchase arrangements may include those for provision of after school care in day care centers.

Payments for purchase of group day care may be paid either on an "as paid" basis or a "cost" basis.

"As paid" - the amount customarily charged by the center, up to a maximum of $5.00 per day per child (as of September, 1970).

"Cost" - cost of care up to a maximum of $5.00 (as of September, 1970). The local department reviews the center's budget to determine cost of care offered by the facility. Subsequent reviews are conducted annually to determine changes in cost. When care is purchased on this basis the facility's financial records are subject to audit by the State.

5) Family day care licensing. Licensing operations are carried out by local departments of social services.

PARENT PAYMENTS FOR DAY CARE:

The amount of resource for payment by a parent is determined by using the Department's fee schedule. Parents are required to reimburse the local department for absences due to planned vacation or illness for a period not in excess of 10 consecutive week days when reported in advance to the agency.

Parent fees for day care are required to be paid weekly. For absence of less than one week payment is on a per diem basis calculated on the weekly rate of payment divided by five.

The fee schedule which begins on the next page reflects rates for full day care (seven hours or more).

MICHIGAN

NAME OF PROGRAM:

Michigan Department of Social Services Child Care Program.

TYPE OF PROGRAM:

Provides payment for and social social services concerning day care for children of public assistance recipient and low-income families.

SOURCE OF FEDERAL ASSISTANCE (PROGRAM AUTHORITY,ADMINISTERING AGENCY):

U. S. Department of Health, Education, and Welfare.

PROPORTION OF FEDERAL ASSISTANCE AND STATE AND/OR LOCAL MATCHING:

Federal - 75%
State - 25% (cash)

ADMINISTERING AGENCY (STATE GOVERNMENT AGENCY OR GRANTEE AGENCY):

Michigan Department of Social Services.

AGE SPAN OF PARTICIPATING CHILDREN:

Children of any age. As of August 18, 1970, care provided for 21,745 children:
Preschool - 10,236
School Age - 11,509

ELIGIBILITY REQUIREMENTS OF PARTICIPATING CHILDREN:

Public assistance recipient and migrants - automatically qualify for full payment of child care costs with no financial eligibility determination.

Low-income families - qualify for full or partial child care payments, depending upon income.

Example (as of August 18, 1970)

A mother and one child not on public assistance having a net income of $225.00 per month qualifies for full payment of the day care cost. Any net income above would be paid by the family for the day care with the remainder of the cost being covered by our Child Care Program until the net income above $225.00 was enough to completely cover the cost. The exempt net monthly income is calculated on a sliding scale from $225.00 for a two person family, $26.00 for three, and so on with a $35.00 increase for each additional family member.

PRINCIPAL SERVICES PROVIDED:

Payment of cost of child care for public assistance recipients, migrants and low-income families for day care needed because of employment, training for employment, or social or health problems which might be alleviated by day care. In July 1970, approximately $900,000 was spent for purchase of care for 9,150 public assistance and low-income families. Approximately 70% of these families utilized in-own-home care and the remaining 30%, with more or less even distribution, used day care centers, day care homes and relatives homes.

Information services relating to providers of day care.

Assistance in determining the appropriate type of care for each child, and help in locating the appropriate facility.

Continuing social services supportive of the children and family as long as day care is needed.

Other projects either operational or in preparation at this reporting (August 18, 1970) include training efforts for providers of day care - center aides, licensed day care home operators, day care aides for in-own-home care. These projects will be supported in part with locally donated funds to cover the state share (25) of program costs.

ELIGIBILITY REQUIREMENTS OF PARTICIPATING CHILDREN:
One of the following conditions must exist:

1. The AFDC child's parent has been referred to and accepted in the WIN program, or
2. A WIN Program participant requires continued day care for children to remain in the Program or to maintain full-time employment until the person is reasonably able to make other satisfactory child care arrangements, or
3. The AFDC child's parent enters private full-time employment or work-related training and requires such service, or
4. The AFDC child's parent is participating in the Department's project for Unmarried Mothers and requires such service.
5. In addition to the above, any AFDC child may be referred who has a special health or social problem and is deemed appropriate for day care by the Program Supervisor. The appropriateness of such a referral must be substantiated by medical and/or social evaluations, as indicated.

PRINCIPAL SERVICES PROVIDED:

Family day care:

AFDC mothers trained to become family day care mothers. Training and assistance provided for taking care of children in the home of the AFDC mother.

Purchase of child care in family day care homes licensed for independent care of children or those approved for programs operated by licensed child placing agencies. Fees are paid in full by the Department.

Group day care:

Services are purchased in any of the 30 licensed group day care facilities in the State. (No day care centers are owned or operated by the State). Fees, up to $24 per week, depending upon the cost of care per child, are paid in full by the Department. AFDC mothers have free choice of use of any licensed group day care facility for their children from three to six years of age regardless of whether the facility is supported by public or private funds. Ten of 30 licensed facilities are profitmaking and operated without public funds (other than those funds received from "purchase" arrangements) while the remaining 20 are funded by either United Fund, Catholic Charities, independent church groups, private donations, or a combination of city or town funds, community action program funds and Head Start funds.

Family day care and group day care services were being provided for approximately 1200 children through purchase arrangements as of August, 1970.

The Department also provides consultation and technical assistance to day care efforts in the State.

WYOMING DEPARTMENT OF HEALTH AND SOCIAL SERVICES
DAY CARE POLICY

The stated policy of the Division of Public Assistance and Social Services (August 18, 1970) is to provide day care payments in cases in which such would allow the recipient to remain in training. It was further stressed that day care is not provided routinely in all cases, but only on a very limited basis and only if day care would make the difference between a person completing training or not completing it.

Any day care which might be paid for for social reasons (ie., other than training) comes strictly from county departments of public welfare funds.
